## Tiger Logistics to implement Logi-Sys for optimal service delivery

Softlink's Logistics Management Solution to help enhance their service capabilities and resource management provide consistent, quality customer experiences

Mumbai : Softlink announced that Tiger Logistics has implemented Logi-Sys for integrating and optimizing its logistics services. The company will deploy the logistics management software specifically designed for the industry to help optimize activities to meet customer demand and provide a consistent, high-quality customer experience.

Tiger Logistics is involved in providing both inbound and outbound logistics solutions including international freight forwarders, Customs clearance agents, transportation, Customs consultants, project transportation and many value added services to various large corporate and multinational companies in India and abroad. With a team of well qualified technical and experienced manpower Tiger Logistics has synergised the finest talent available into outstanding team of professionals. The company gives an advantage for dealing with one firm for all Customs clearance, Freight forwarding and Customs matter. **Cont'd Pg. 15**

This will enable the clients to co-ordinate all these activities to get maximum benefits resulting in cost reduction, efficiency and increase project profitability.

Logi-Sys will provide Tiger Logistics with a holistic approach and solution set for managing its operations across branches and facilities. The solution provides robust functionality uniquely designed for enterprise environments, automating the ability to control critical operations, create strategic plans, and empower optimal management of various departments.

"Tiger Logistics chose Softlink's Logi-Sys for its robust technology and domain backing. Our operational managers will benefit from executing schedules that more accurately and match customer requirements in less time and effort," explains Mr. Harpreet Singh Malhotra, Managing Director of Tiger Logistics. "We are also looking forward to using the rich tools of the system to help us make informed decisions and for long-term budgeting and planning."

"We are delighted to welcome Tiger Logistics to the Softlink family as it furthers its logistics optimization focus. Its selection of Softlink underscores the growing number of logistics service providers that are turning to our logistics solution to help improve their customer experiences, while effectively managing and optimizing operations across branches," adds Mr. Amit Maheshwari, Managing Director, Softlink. "As a leading, global provider of enterprise logistics solution, Softlink is committed to delivering solutions that help organizations of all sizes maintain their competitive edge, manage operational costs, and advance their customer relationships."
